~ Although every effort is made to ensure accuracy of the information above there are sometimes classes added at the last minute making specific equipment unavailable.

From time to time Circus Space will ask members to volunteer for photographic projects for press and publicity, an essential part of maintaining our profile and that of the Circus Arts sector. We are always grateful for any help you can offer. We would also like to clarify that if the photography is for research or archive purposes we will not ask for prior permission and photographers may be present throughout the building at any given time. We would like to reassure all members that no images are reproduced without consent.
